## Call for Internship

The Western Ghats Nature Foundation (WGNF) invites passionate and committed individuals to apply for an internship focused on exploring and understanding the unique landscapes of the Western Ghats. This internship emphasizes biodiversity documentation and ecological functions in agro-ecosystems and offers the opportunity to contribute to meaningful scientific research and conservation initiatives.

### Eligibility Criteria

- A graduate degree or currently undergoing an academic degree (B.Sc. or M.Sc.) in Forestry, Environmental Science, Botany, Zoology, Agriculture, or related disciplines (prior experience in ecological surveys is an added advantage)
- Strong motivation and willingness to work in remote field locations
- Commitment to scientific methods and field-based research practices
- Proficiency in scientific report writing and experience in data analysis

This internship offers a valuable opportunity for aspiring researchers and conservationists to gain hands-on experience in biodiversity assessment and ecological research, while actively contributing to conservation initiatives in one of the world's most important biodiversity hotspots.

Interested candidates should send their short CV along with a motivation letter (not more than one page) to [wgnfoundation@gmail.com](mailto:wgnfoundation@gmail.com) on or before **20 March 2026**. The duration of the internship is **>15 days**, with flexibility depending on mutual availability and project requirements.

Join us in exploring, learning, and conserving the remarkable biodiversity of the Western Ghats!

----- *Good Luck* -----
